

Draw Crow

Use the instructions to draw a crow like Johnathan Bentley has done.

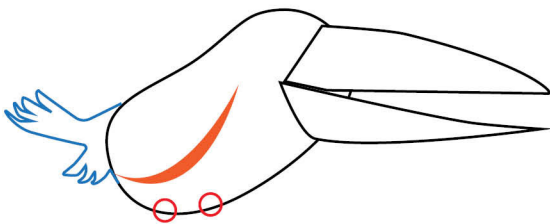

1

Start by drawing a bean shape for the body.

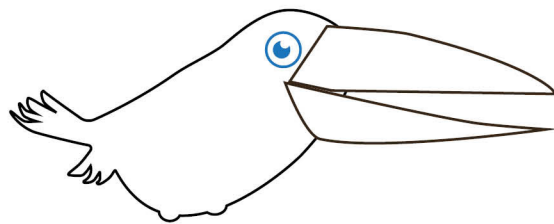

2

Draw a long beak on the top of the bean shape.

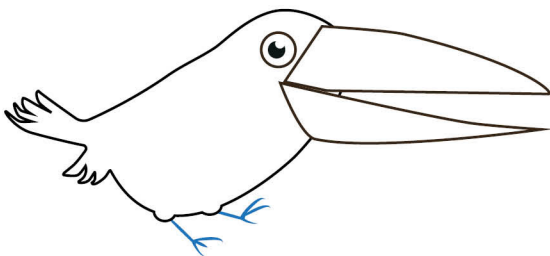

3

Give the crow a tail, a curve for the wing and then bumps on the bottom for the feet.

4

Make a circle near the beak, then draw another circle inside it to make an eye.

5

Draw the crow's feet, colour and you're done!
